ACTIVITY: Alternative Methods for Outreach

MEETINGS	SURVEYS	FOCUS GROUPS	INTERVIEWS
Artists co-ops	Pre/post surveys community surveys gather feedback about what's wanted and needed in community	Use guided questions survey can inform focus group process of gathering info/data	Master artists Zuni artists
		Be Good Listeners	

ACTIVITY: All on the Wall

✓ Work

Workforce Development

Employment rates

financial literacy

support entrepreneurs

Food and/or Governance

Food Sovereignty

Environment

Claen water & air
clean & safe water

✓ Arts/Culture

control & determine our own destiny

Exposure to the arts for all

✓ Education

High School graduation rates
over 90%

Access to higher education

access to college prep
classes

Preschool for all

Health

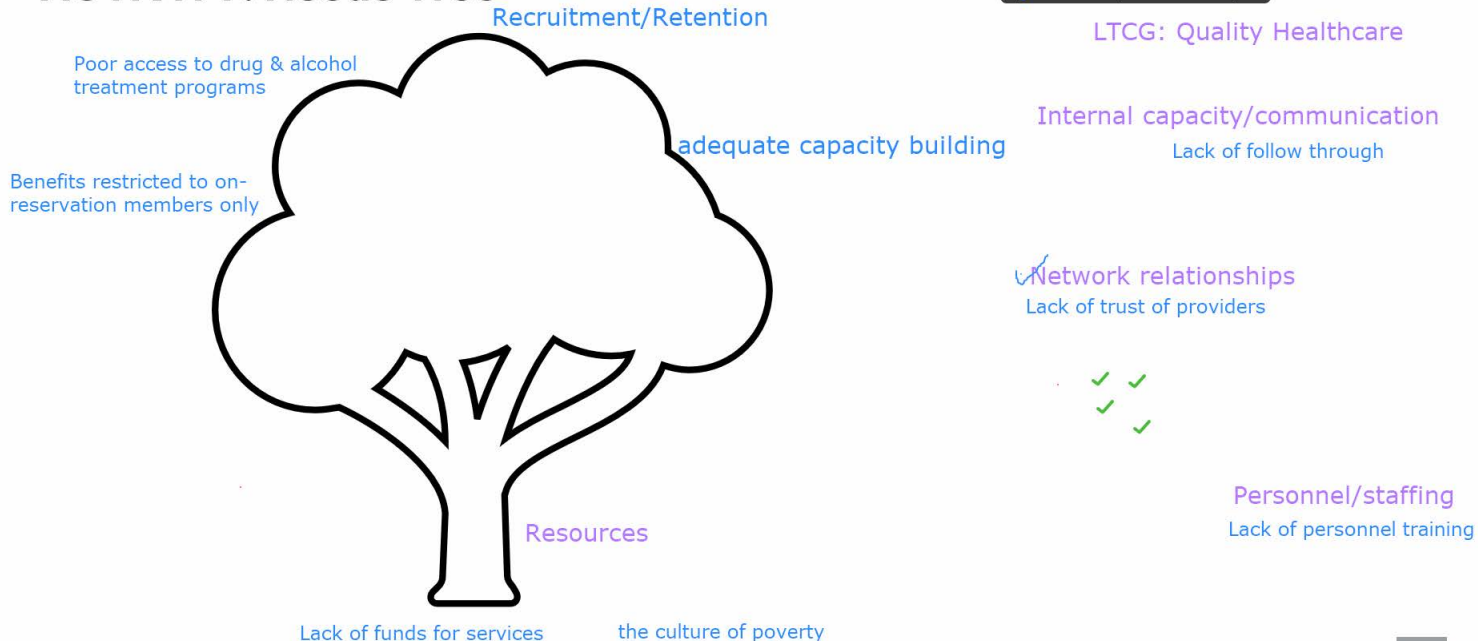

access to quality healthcare

Health and wellness for all

Our community is thriving
with access to quality
healthcare, providing
wellness for all community
members

ACTIVITY: Needs Tree

ACTIVITY: Identify Conditions

Community Identified Concerns	Prioritized Condition of Highest Concern	Secondary Sources	Means of Gathering Documentation
Internal Capacity	Resources	Tribal Health/IHS	Surveys
Resources		Tribal Archive/Local Archive	Tap into network/relationships
Networks		Schools /Tribal Colleges	Reviewing Reports
Culture/Traditions		Housing/Other Dept.	Annotated Bibliography
Funding		Tribal Data/Annual Report	Interviews
		Public Meetings/Interviews	
		Budget Trends v.s. Costs	
		Census (national data)	

ACTIVITY: Determining a Project Goal

LTCG: Quality Healthcare
CCC: Resources

- ✓ ✓ Improve access to drug & alcohol treatment to allow up to 20 members a year to access care.

To conduct a healthcare assessment

To establish a staff retention program.

- ✓ To increase capacity to manage existing resources

ACTIVITY: Big Picture Thinking (Work Backward)

LTCG: Quality Healthcare

CCC: Resources

PG: Increase access to drug treatment programs/services

1. Increase organizational knowledge of existing treatment.

- Determine capacity for reestablishing treatment center
- Determine who is being sent out for treatment
- visit other successful program.
- Identify continuity of services

2. Increase awareness

- organized communication to community
- Recruit participants

3. Increase capacity to establish a treatment

- Establish/train a drug & alcohol counselor position in the local high school
- Determine licensing

ACTIVITY: Objective Mad Lib

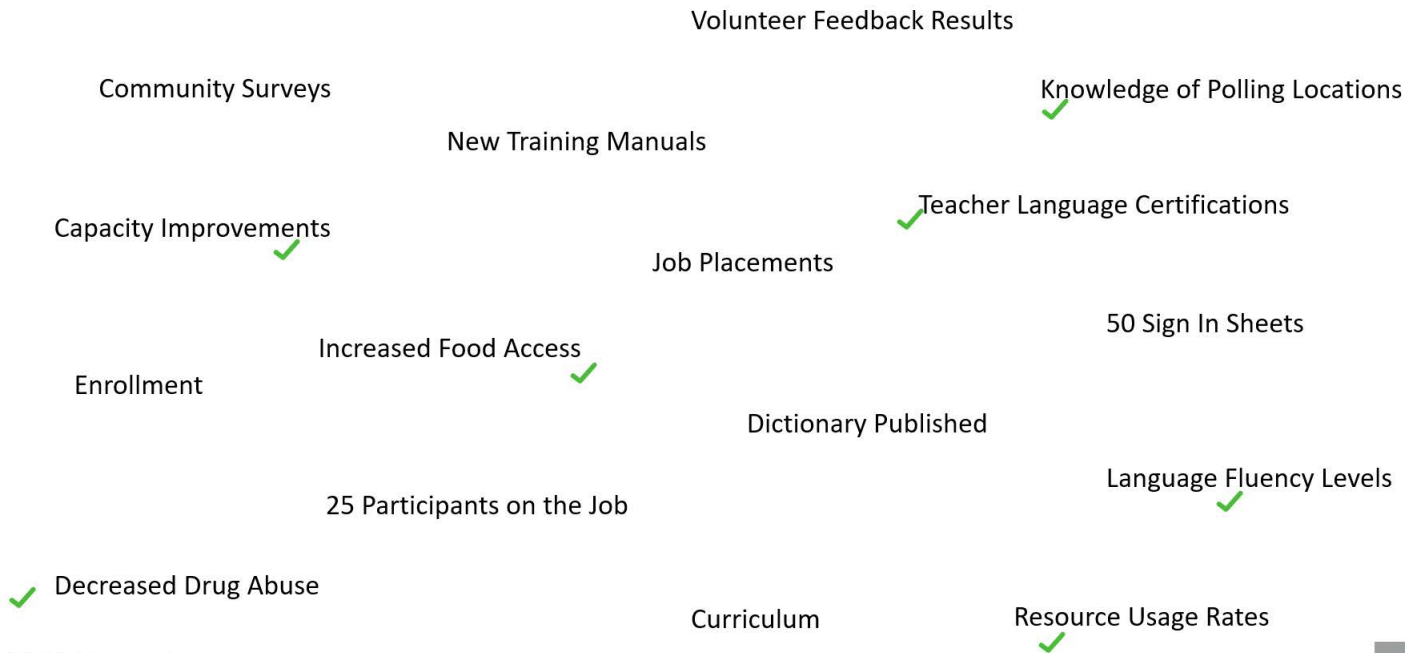

Increase Knowledge on Treatment (existing/past)

By the 12th month, the Duck Valley Community
(*timeline*) (population)

will increase their knowledge of treatment
(*indicator*)

by speaking with at least 25 of the 350 community members experiencing drug abuse - as personally reported.
(*target*)

ACTIVITY: Which is which?

ACTIVITY: Draft Your Own

LTCG: Our community is thriving with access to quality healthcare, providing wellness for all community members

CCC: The tribe has high rates of drug abuse with minimal opportunities for treatment on reservation despite rates exceeding the regional average.

PG: To improve access to drug & alcohol treatment for up to 20 tribal members annually.

Obj 1: By the 12th month, the Tribe will increase their knowledge of preferred treatment methods by speaking with at least 25 of the 350 community members who have personally reported experiencing drug or alcohol abuse.

Outcome:

Decrease in drug abuse rates

Increase in awareness

Increase in participation rates

Outputs:

of outreach activities

of interviews conducted

25 adults interviewed

ACTIVITY: SWOT

Internal Strengths

- A building
- Certified staff
- Cohort of people to work toward the vision
- High levels of interest and willingness
- People who have experienced success stories

Internal Weaknesses

- Finances
- Small community/limited resources
- No plan/structure
- Repeated staff turnover
- lack of commitment to ideal outcome

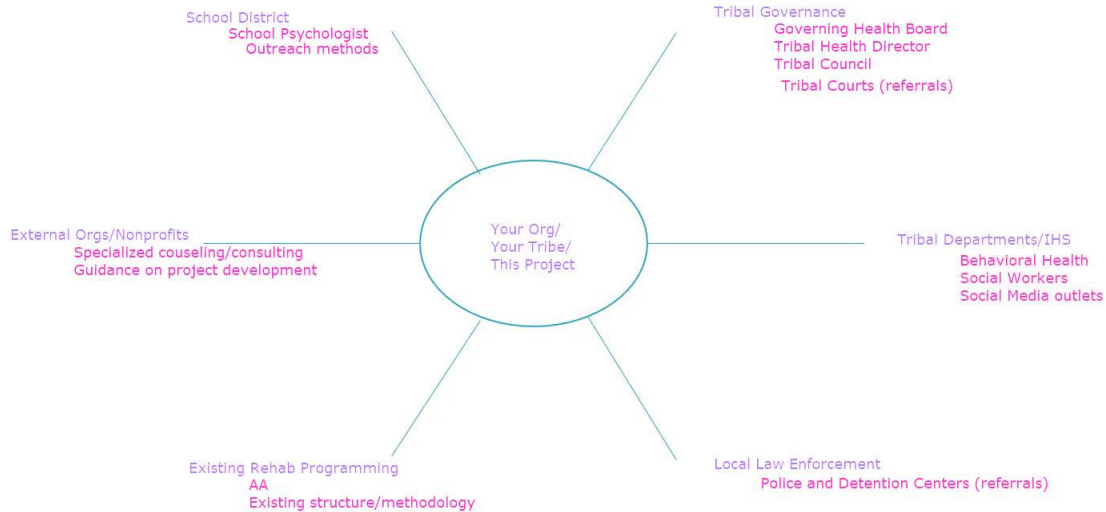

- Partner organization/treatment center
- Funding sources
- partnering with other orgs for monitoring
- Connect with IHS to further networking

- Remote/rural
- Covid-19
- Geographic barriers
- Lack of human resources

External Opportunities

External Threats

ACTIVITY: Asset Mapping

ACTIVITY: Practice Brainstorming Activities

Obj 1: By the 12th month, the Tribe will increase their knowledge of preferred treatment methods by speaking with at least 25 of the 350 community members who have personally reported experiencing drug or alcohol abuse.

Hire Staff/Consultant

- >posting job desc
- >recruiting interested staff
- >interview and determine hiring

Create interview questions

- >consider the population
- >draft sample questionnaire
- >method for rating responses

Recruit 25 participants

- >identify
- >ask if they've experienced first hand
- >clarify expectations on drug and alcohol abuse (what it is)
- >regular meetings

ACTIVITY: 6 Ws of Ongoing Monitoring and Evaluation

Goal:	To improve access to drug & alcohol treatment for up to 20 tribal members annually.	
Objective:	By the 12th month, the Tribe will increase their knowledge of preferred treatment methods by speaking with at least 25 of the 350 community members who have personally reported experiencing drug or alcohol abuse.	
Outputs:	# of people participating, # of interviews conducted, # of methods identified	
Outcome:	To decrease the rate of drug abuse in our community	
What?	qualitative and quantitative data from interviews	Meetings, Policies/Procedures, Etc.
Who?	Project Coordinator	
Where?	Secure database on a computer, housed with Proj. Coord. and password protected	
When?	pre- and post-interviews with a set time after	
How?	Interviewing	
Why?	Identify preferred methods	Improving project, monitoring project outcomes, use for future funding

ACTIVITY: How might you do each?

Objective:	By the 12th month, the Tribe will increase their knowledge of preferred treatment methods by speaking with at least 25 of the 350 community members who have personally reported experiencing drug or alcohol abuse.
Routinization:	Staff trained to work with community members on awareness training, i.e., education department
Increased Capacity:	Community support for those in recovery
Partnerships:	School system & private schools Indian Health Clinic
Leveraged Resources:	Community awareness working with students Healthcare screening with students
Program Income:	

ACTIVITY: Assets vs Funding

Resources You Have	Partner Resources	ANA Funding Requests	Value/Cost
	meeting availability		
	office space available		
staff	medical staff		
counselor			
van for transportation	local AA meeting		
	office equipment at local college		
		substance data analyst	
		PI or PD for project admin assistance	
		external evaluator	\$60/hr, plus mileage and possibly per diem
